DETAILED ACTION

This Supplemental Allowance has been submitted to correct the error found in Claim 7, which was previously cancelled by the Applicant. The following is comparable to the previous Notice of Allowance mailed on August 25, 2005, with the exception of Claim 7 being removed.

Allowable Subject Matter

1. Claims 1, 3-6, 8-12, and 14-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. With regards to Independent Claim 1, the applicant has sufficiently amended and narrowly defined an electrical component cover plate, wherein a translucent cover plate with reflective inner surfaces has a quick connect/disconnect multi-colored LED mounted thereon, and whereby a manually operable switch is mounted on said cover plate to provide a plurality of positions corresponding to a different color of light emitted from said LED. The prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, and all subsequent dependent claims are allowed.
4. With regards to Independent Claim 14, the applicant has sufficiently amended and narrowly defined an optical conductor electrical outlet, wherein a cover plate has interior reflective wall surfaces, an LED mounted to one of said walls, and a transparent/translucent face mounted to said cover plate and including an electrical outlet. The prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, and all subsequent dependent claims are allowed.

Art Unit: 2875

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
